To ensure customer satisfaction, we work on followed from the time of developing samples until the ready-made garment is loaded into the container.

Company Profile of TEXIMCO (BD) LTD.

OUR PHILOSOPHY

Passion for a business that is challenging and that pushes our limits every day. Sometimes our desks are altars on which we sacrifice not only our time, but ourselves. But we love it. We wouldn't have it any other way.

Design | Price | Trust | Quality | Ontime Delivery

We try to be ahead of our completion in product & price by a fully-fledged design studio and merchandisers that are highly skilled in product costing. With our collection proposals, our customers will be enabled to buy more often and quicker. Quicker lead time offers obvious additional benefits to our clients. Our customers can trust on us in everything we do!

Our main target is customer satisfaction and having customer continuity. Our aim is to meet our customers' needs and to be best for service, quality, price and design. To get the best result, our team works with all their experience on the workflow and quality. We also have the big advantage of having a wide range fabric research and working with the best suppliers. Fabrics used for our products can be sourced from local market or Far East in order to meet our customers' demands.

In order to give the best price and service, we evaluate the needs of our customers and assign the most suitable production unit according to those needs.

BUSINESS STRATEGY

Customer insights and innovation are all about making fact-based well-informed choices. But it's not just about choosing what to do; it's also about choosing what not to do. We take a disciplined approach to making choices that deliver long-term customer loyalty and value to end consumers.

The strategic process begins with defining aspirations and goals, then moves on to identifying where to play and how to win, analyzing the capabilities we need to win, and finally measuring that success.

It all starts with the customers- understanding their needs and defining what we must do to win their loyalty. This means gaining a deep understanding of who they are, what they wear, what they think, what they value, how they shop and what they buy, so that we can design products and experiences they care about.

Company Profile of TEXIMCO (BD) LTD.

HOW WE WORK

Inquiry: Once we receive your product specification such as - sketch, design & measurement, fabric construction & color, or even reference sample we will discuss the options and procedure. An initial costing can be given, inform timing and other factors if any.

Design Developments : We develops prototype patterns and samples, approval samples and patterns, grading to all requisite size ranges and size sets, issues production markers ensuring most judicial use of fabrics keeping in mind all technicalities of fabric to produce most desirable garments.

Sample Making : Upon acceptance of initial price we develop the samples from our sample section according to the required design/samples with available fabrics. This sample will be evaluated by the Buyer to examine the design, measurement and workmanship.

Factory Sourcing : We have own kint Garments Manufacturing unti Associated some kint, Woven, Sweater, jeans, Towel, Hats & Cap Factories located in Dhaka, Gazipur, Saver, Ashulia, Narayangonj & Chattogram Area. We have pre-allocated production space in all our factories and hence it's easy for us to execute all our orders on time. On the spot presence of our technical and quality assurance team ensures smooth running of orders and achieve right quality in first me, to avoid last moment surprises.

Production Control : With experienced and skilled on-site quality control teams, we are able to provide our partners with the visibility and control needed to measure the progress and quality of each order. Every detail is taken care of.

Quality Control : We have experienced technicians who monitor and control the quality at factories and discuss with customers the technical developments and opportunities for gaining optimal efficacy. We ensure that all necessary tests of materials are done on time with reputable test institutes or with in.

Minimum Order Qty (MOQ): Most of the styles, we need minimum quantity, which is different according to different styles and negotiable always.

Lead Time : As our production facilities are totally vertical operations, this enables us to maximize business opportunities with our customers, for example we can offer on local sourced fabrics lead times from 45 to 55 days after approvals which is paramount in servicing the high street retail sectors. For production using imported fabric the lead times can vary from 90 to 120 days depending on the fabric.

Beginning of Order Execution: Once the L/C is received in our bank we purchase the required fabric or yarn and make required sample (counter, size set and PP) for approval from customer. This sample will be exact to customer specifications in design and fabric. Upon approval we will start manufacturing the product.

Order Execution: We closely monitor the orders at all stages from sampling to shipment. This includes critical path information which highlights the progress of the order from placement through shipment arrival. The process is seamless, requiring no special attention from customer side until the goods arrive at agreed destination.

Final Inspection: The consignment is finally checked, packed under close supervision of our QA team according to AQL Standard. We are looking forward to hearing your favorable response. In the mean time if you need any more information please feel free to Contact us.
